The Model 6280 is the base holster of the Self Locking System (SLS) holsters. This duty version features a unique rotating hood design. Since there is no snap the SLS allows for a smoother single-motion draw and greater protection against attempted weapon takeaways. The hood can only be released by being simultaneously pushed down and rotated forward, and actually becomes more secure when upward force is applied. It is also far less likely to release accidentally than conventional thumb break snaps.

The Model 6280 is a Level II Retention™ holster with a top draw and straight drop cant, a style popular with major police departments and a personal choice for individual officers.

The 6280 features a tensioning device, which, when firmly adjusted becomes a Level III Retention™ holster, molded sight track and SafariSuede™ lining to protect the gun's sights and finish. Its wraparound construction provides the strongest design combination available. The 6280's SafariLaminate™ structure makes these features possible.

Safariland's rigid UBL anchors the holster and stabilizes it on your duty belt with hardened aerospace fasteners. Your holster and belt become one unit, a real advantage when executing crisp, clean draws. Safariland offers Training DVDs for various products. For more information on retention levels and this product please review TV-1014D, TV-1020D and TV-1017D.

The Model 6280 is the base holster of the Self Locking System (SLS) holsters. This duty version features a unique rotating hood design. Since there is no snap the SLS allows for a smoother single-motion draw and greater protection against attempted weapon takeaways. The hood can only be released by being simultaneously pushed down and rotated forward and actually becomes more secure when upward force is applied. It is also far less likely to release accidentally than conventional thumb break snaps.

The Model 6280 is a Level II Retention™ holster with a top draw and straight drop cant, a style popular with major police departments and a personal choice for individual officers.

The 6280 features a tensioning device, which, when firmly adjusted becomes a Level III Retention™ holster, molded sight track and SafariSuede™ lining to protect the gun's sights and finish. Its wraparound construction provides the strongest design combination available. The 6280's SafariLaminate™ structure makes these features possible.

Safariland's rigid UBL anchors the holster and stabilizes it on your duty belt with hardened aerospace fasteners. Your holster and belt become one unit, a real advantage when executing crisp, clean draws. Safariland offers Training DVDs for various products. For more information on retention levels and this product please review TV-1014D, TV-1017D and TV-1020D.

Safariland offers three uniquely designed accessories for the SLS holster system, the 6000 Hood Guard, the 6001 Sentry (converting the holster to a higher level of security), and the 6002 Hood Guard/Sentry Combination. Available for SLS Models including the 6004, 6005, 6280, 6285, 6287, 6295, and the 62955; Raptor Models including 6070, 6075, 6074, 6270, 6274, and the 6275; ALS® Series SLS holsters including the 6360, 6365, 6304, 6305, 6354, 6355, and the 6367.
